### About Global Credit Data:

The Global Credit Data Consortium (the Association) is a non-profit registered association owned by 53 banks and financial institutions around the world. Its mission is to help banks understand and model their credit risks. Activities include pooling of credit loss data, especially for low default portfolios; providing benchmarks; facilitating knowledge exchange and fostering research. Through its staff of 9 persons in Europe and North America, the Association runs databases, working groups, conferences and performs analytics, all dedicated to the needs of its members.

### Overview:

The Global Credit Data Consortium seeks a new Executive Director to take on the most senior executive leadership role of the association. The successful candidate will be responsible for all activities and operations of the association, including managing personnel, carrying out the strategy of the Board and representing the association in the financial community.

### Key Responsibilities:

- Ensure development of the relationship and services with existing members
- Promote the benefits of membership of the Association to senior persons at banks and other finance industry companies, both to existing and potential members
- Represent the association towards finance industry bodies, including regulators, consultants and other industry associations

---

The Global Credit Data Consortium is a not for profit Association registered in The Netherlands
